

# D-Link DIR-825 C1

Modified on: Fri, 20 Feb, 2015 at 10:12 AM

---

Please connect an Ethernet cable from your existing modem/router/network in to the port labelled "Internet/WAN" on the back of the D-Link

Connect an Ethernet cable between port 1 on the back of the D-Link and your computer

Turn on the router and wait for a few minutes

Open a web browser and type **http://192.168.1.1** in to the address bar

You will be prompted to log-in. The default username is "**Admin**" and the password should be left blank (unless you have changed these prior).

Product Page: DIR-825 Hardware Version: C1

## D-Link

### LOGIN

Log in to the router

User Name : Admin ▼

Password :

Login

Click on "**Tools**" at the top and then on "**Firmware**" on the left menu.

<b>DIR-825</b> //	<b>SETUP</b>	<b>ADVANCED</b>	<b>TOOLS</b>	<b>STATUS</b>
ADMIN	<b>FIRMWARE UPDATE</b>			
TIME	There may be new firmware for your DIR-825 to improve functionality and performance.			
SYSLOG	To upgrade the firmware, locate the upgrade file on the local hard drive with the Browse button. Once you have found the file to be used, click the Upload button below to start the firmware upgrade.			
EMAIL SETTINGS	The language pack allows you to change the language of the user interface on the DIR-825. We suggest that you upgrade your current language pack if you upgrade the firmware. This ensures that any changes in the firmware are displayed correctly.			
SYSTEM	To upgrade the language pack, locate the upgrade file on the local hard drive with Browse button. Once you have found the file to be used, click the Upload button to start the language pack upgrade.			
<b>FIRMWARE</b>				
DYNAMIC DNS

SCHEDULES				

Click on "**Choose File**" and select the firmware file that you have been provided

**FIRMWARE UPGRADE**

**Note: Some firmware upgrades reset the configuration options to the factory defaults. Before performing an upgrade, be sure to save the current configuration from the [Tools → System](#) screen.**

To upgrade the firmware, your PC must have a wired connection to the router. Enter the name of the firmware upgrade file, and click on the Upload button.

dl-dir-825-c1.bin

Click on "**Upload**" and press to confirm. The upgrade process will now begin and take up to 5 minutes to complete.

The firmware upgrading...Please wait 238 seconds.
