Linksys WRT160NL

Modified on: Fri, 20 Feb, 2015 at 10:11 AM

Please connect an Ethernet cable from your existing router/network in to the port labelled "**Internet**" on the back of the Linksys.

Please connect an Ethernet cable between port 1 on the back of the Linksys and your computer.

Turn on the router and wait for a few minutes.

Open a web browser and type http://192.168.1.1 in to the address bar.

You will be prompted to log-in. The default username is "**admin**" and the password is "**admin**" (unless you have changed these).
